Kosmos Platform Quick Start Guides
For Bridge, Android and iOS

Torso-One and Torso

Quick Start Guide for Bridge

Getting Started

Step 1 🔋 Charge the Bridge

Plug the power supply into the USB-C port on the side of the Bridge

Step 2 📶 Connect to Wi-Fi (Optional)

From the Kosmos Homescreen, tap **Settings > Admin > Wi-Fi**
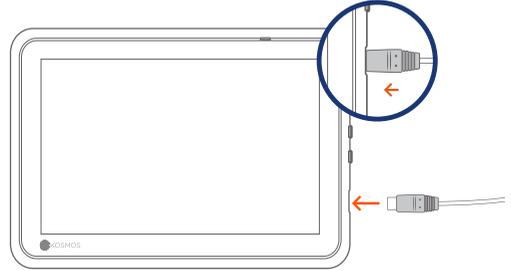

USB-C port for charging and Lexsa connector

Step 3 Connect Torso-One/Torso

Plug the Kosmos Torso-One or Torso connector into the port under the Kosmos Bridge Handle.

Note: To register your transducer and licensed features for the first time, the probe must be connected to the device and your device must be connected to the internet. This step may take a few minutes.
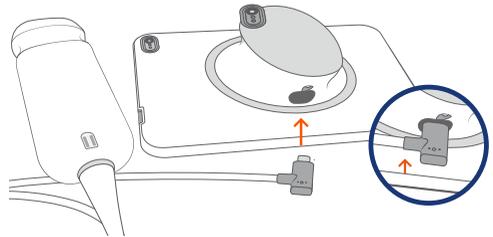

USB-C port for Torso-One/Torso connector

Step 4 Transducer Element Check

An automatic Transducer Elements Test is initiated every time a Kosmos probe is connected to a device.

With the completion of a successful test, users can begin scanning.

Torso-One Test in progress.
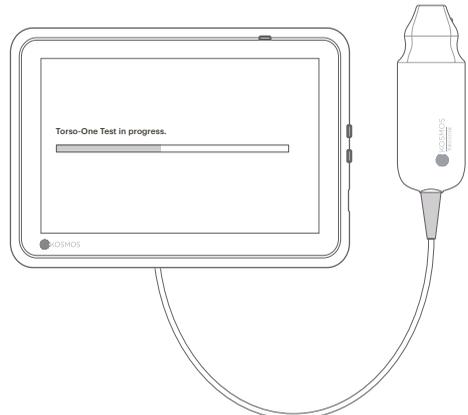

Bridge Accessories
(Optional)

Kickstand (Optional)

Insert Bridge into the kickstand and connect probe(s).

Adjust the position to get the best viewing angle and place on a flat surface.
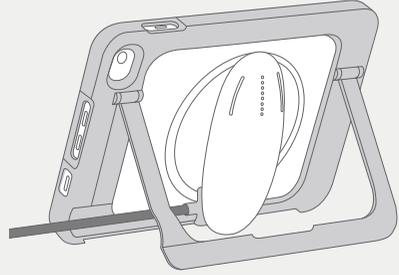

ECG (Only applicable with Torso)

To view the ECG Signal, connect the magnetic connector end of the ECG patient cable to Kosmos Torso.
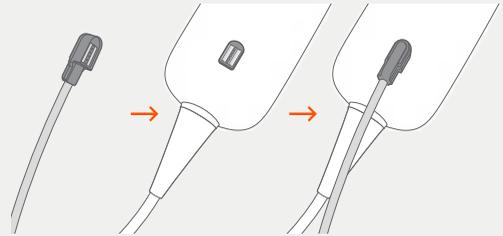

Digital Auscultation (Only applicable with Torso)

To hear the digital auscultation sound, plug the USB end of the binaural headset into the USB port on Kosmos Bridge.

(i) Customers must provide their own binaural headset.

Please refer to the Kosmos User Guide for next steps.
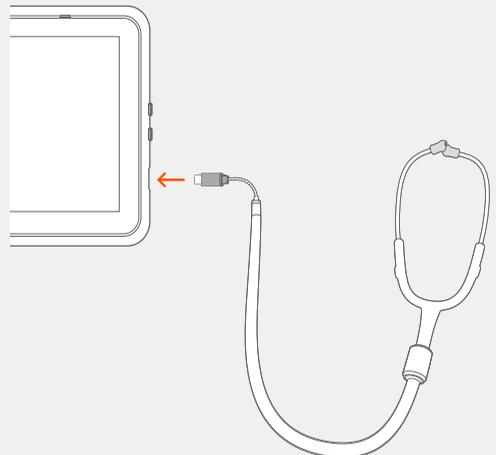

Torso-One

Quick Start Guide for Android and iOS

Getting Started

Step 1 🔋 **Fully charge the tablet prior to use**

Step 2 📶 **Connect tablet to Wi-Fi**

Step 3 ⬇ **Download EchoNous Ultrasound App**

Note: Android and iOS users must download the EchoNous Kosmos Ultrasound App.

App: EchoNous Kosmos Ultrasound App
EchoNous, Inc.

iOS
Download EchoNous Kosmos
Ultrasound App from the Apple App

Android
Download EchoNous Kosmos
Ultrasound App from the Google Play Store.

Step 4 Connect Torso-One

Connect Torso-One to the USB-C port on the side of your Kosmos Bridge or tablet.

Note: To register your transducer and licensed features for the first time, the probe must be connected to the device and your device must be connected to the internet. This step may take a few minutes.

Step 5 Transducer Element Check

An automatic Transducer Elements Test is initiated every time a Kosmos probe is connected to a device.

With the completion of a successful test, users can begin scanning.
