Date: August 25th, 2023

Distribution: Internal (sales and clinical educators) and External (customers)

Kosmos Software v2.1 Release Features for Kosmos on iOS

The iOS v2.1 software release provides the following features and improvements for Kosmos on iOS:

- Pulsed Wave Doppler on Torso-One
- Continuous Wave Doppler on Torso-One
- Tissue Doppler Imaging on Torso-One
- Pulsed Wave Doppler on Lexsa
- Color Power Doppler on Lexsa
- Trio (AI)
- AI FAST
- EF Workflow
- Feature Licensing
- Kosmos Hub Support
- Cardiac Calcs (Manual)
- Vascular Calcs (Manual)
- DICOM SR
- Torso-One TDI Sample Gate Size Increase
- Torso-One Update Sweep Speed
- Auto VTI Tracing
- Lexsa Nerve Optimization

Do not disconnect the probe during the Transducer Element Check. Disconnecting the probe before the test has been completed may cause a temporary software anomaly while in Exam Review.
