

Kosmos UP

Designed by ultrasound experts to streamline education and clinical workflows

Kosmos UP (Universal Platform) is a HIPAA-compliant online platform built to facilitate image archiving, quality assurance, and performance metrics.

Integrate Kosmos UP with Kosmos Bridge to create a connected, scalable solution that can support individuals to institutions to help enhance ultrasound training and workflow efficiency.

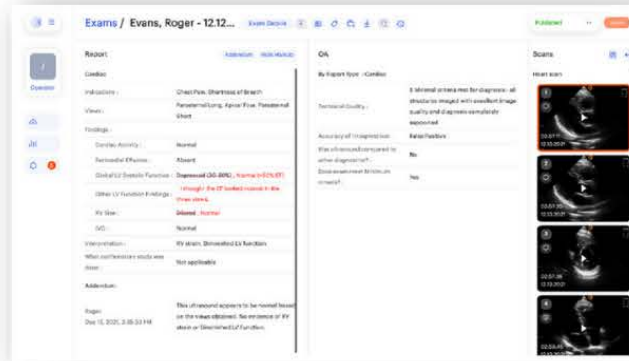

Image Archiving

- Store exams
- Create and share portfolios
- Add labels to exams to optimize future searches

Quality Assurance Review

- Track progress of exam submission through QA review
- Comment on individual images directly for targeted feedback
- Edit image reports for accuracy

Performance Analytics

- Track performance analytics at individual and group level
- Filter data to facilitate research
