Kosmos Power Pack Quick Start Guide

What's in the box

Power Pack

Charging Cord

Mounting Plate

(Pre-attached to Power Pack)

Setting up your Power Pack

Step 1: Make sure Power Pack is charged for one hour prior to use.
(See instructions on Charging your Power Pack).

Step 2: Position Power Pack onto device so that it sits comfortably in hand when in use, keeping both port to device and Power Pack are on the same side.

Step 3: Once the Power Pack position is set to your preference, peel off the adhesive backing on each strip and place the Power Pack onto the device in desired position. Press firmly onto the Power Pack and hold for 45 seconds to make sure adhesive is applied tightly to the device.

Notes:

- Adhesive strips are not for reuse.
- The adhesive will not adhere to rubber.

Step 4: Connect the Power Pack cable to the tablet as shown

A: Power Pack cable

B: Probe cable connection

Note: Power Pack must be connected to the tablet **first** in order for the probe to be recognized by the Power Pack.

Charging your Power Pack

Step 1: Disconnect the probe if connected.

Step 2: Connect the charger to the Power Pack. Once connected, the lights on the Power Pack will indicate the battery power level.

C: AC Charger adapter point

Step 3: Disconnect charger once Power Pack is fully charged.

(See Power Pack LED Status).

How to dismantle the Power Pack (optional)

Step 1: To remove the Power Pack from the mounting plate, press down on the release tab (D) and slide the Power Pack down.

Step 2: To mount the Power Pack back on, slide the Power Pack up into place.

Power Pack LED Status

Guide de démarrage rapide Kosmos Power Pack

Contenu de la boîte

Power Pack

Cordon de charge

Plaque de montage

(livrée fixée au Power Pack)

Configuration du Power Pack

Étape 1. Veiller à charger le Power Pack pendant une heure avant l'utilisation.
(Voir les instructions sous Charge du Power Pack.)

Étape 2. Placer le Power Pack sur l'appareil de façon à garantir une prise en main confortable pendant l'utilisation, en veillant à maintenir les ports de l'appareil et du Power Pack du même côté.

Étape 3. Une fois la position du Power Pack définie selon ses préférences, retirer le film de protection de chaque bande adhésive et placer le Power Pack dans la position souhaitée sur l'appareil. Appuyer fermement sur le Power Pack pendant 45 secondes pour s'assurer que les bandes adhésives adhèrent bien à l'appareil.

Remarques :

- Les bandes adhésives ne sont pas réutilisables.
- L'adhésif n'adhère pas sur du caoutchouc.

Étape 4. Brancher le câble du Powerpack sur la tablette comme illustré.

A : Câble du Power Pack

B : Connecteur de câble de la sonde

Remarque : Brancher le Power Pack à la tablette **en premier** pour que le Power Pack reconnaisse la sonde.

Charge du Power Pack

Étape 1. Débrancher la sonde si elle est branchée.

Étape 2. Brancher le chargeur au Power Pack. Une fois branché, les témoins du Power Pack indiquent le niveau de charge de la batterie.

C : Raccord d'adaptateur de chargeur CA

Étape 3. Débrancher le chargeur lorsque le Power Pack est complètement chargé.
(Voir État des LED du Power Pack.)

Démontage du Power Pack (facultatif)

Étape 1. Pour retirer le Power Pack de sa plaque de montage, appuyer sur la languette de dégagement (D) et glisser le Power Pack vers le bas.

Étape 2. Pour remonter le Power Pack sur la plaque, mettre le Power Pack en place en le glissant vers le haut.

Panduan Memulai Cepat Power Pack Kosmos

Isi kemasan

Power Pack

Kabel Pengisian Daya

Pelat Pemasangan

(Sudah terpasang pada Power Pack)

Mengatur Power Pack

Langkah 1: Pastikan daya terisi selama satu jam sebelum Power Pack digunakan. (Lihat petunjuk tentang Mengisi Daya Power Pack).

Langkah 2: Posisikan Power Pack pada perangkat sehingga dapat digenggam dengan nyaman saat digunakan dengan tetap memastikan port ke perangkat dan Power Pack tetap berada di sisi yang sama.

Langkah 3: Setelah posisi Power Pack diatur sesuai keinginan Anda, lepaskan bagian belakang perekat di setiap strip dan letakkan Power Pack ke perangkat di posisi yang diinginkan. Tekan Power Pack dengan kuat dan tahan selama 45 detik untuk memastikan perekat terpasang dengan erat pada perangkat.

Catatan:

- Strip perekat tidak boleh digunakan kembali.
- Perekat tidak dapat melekat pada karet.

Langkah 4: Hubungkan kabel Powerpack ke tablet seperti yang ditunjukkan

A: Kabel Power Pack

B: Koneksi kabel probe

Catatan: Power Pack harus dihubungkan ke tablet **terlebih dahulu** agar probe dapat dikenali oleh Power Pack.

Mengisi Daya Power Pack

Langkah 1: Lepaskan probe jika terhubung.

Langkah 2: Hubungkan pengisi daya ke Power Pack. Setelah pengisi daya terhubung, lampu di Power Pack akan menunjukkan level daya baterai.

C: Titik adaptor Pengisi Daya AC

Langkah 3: Lepaskan pengisi daya setelah Power Pack terisi penuh.

(Lihat Status LED Power Pack).

Cara melepaskan Power Pack (opsional)

Langkah 1: Untuk melepaskan Power Pack dari pelat pemasangan, tekan tab pelepasan (D) dan geser Power Pack ke bawah.

Langkah 2: Untuk memasang kembali Power Pack, geser Power Pack ke atas sesuai dengan posisinya.

Status LED Power Pack

Guia de início rápido do Kosmos Power Pack

Conteúdo da embalagem

Power Pack

Cabo de carregamento

Placa de montagem

(Pré-conectada ao Power Pack)

Como configurar o Power Pack

Etapa 1: O Power Pack deve ser carregado por uma hora antes do uso.
(Veja instruções em Como carregar o Power Pack).

Etapa 2: Posicione o Power Pack no dispositivo de modo que fique confortável na mão durante o uso, mantendo a porta para o dispositivo e o Power Pack do mesmo lado.

Etapa 3: Depois que a posição do Powerpack estiver definida de acordo com sua preferência, retire o adesivo de cada tira e coloque o Power Pack no dispositivo na posição desejada. Pressione firmemente no Power Pack e segure por 45 segundos para garantir que o adesivo seja aplicado firmemente ao dispositivo.

Observações:

- As tiras adesivas não são reutilizáveis.
- O adesivo não adere em borracha.

Etapa 4: Conecte o cabo do Power Pack ao tablet, conforme mostrado.

A: Cabo do Power Pack

B: Conexão de cabo da sonda

Observação: O Power Pack deve ser conectado ao tablet **primeiro** para que a sonda seja reconhecida pelo Power Pack.

Como carregar o Power Pack

Etapa 1: Se conectada, desconecte a sonda.

Etapa 2: Conecte o carregador ao Powerpack. Depois de conectado, as luzes do Power Pack indicarão o nível de carga da bateria.

C: Ponto do adaptador do carregador CA

Etapa 3: Desconecte o carregador quando o Power Pack estiver totalmente carregado.

(Consulte Status do LED do Power Pack).

Como desmontar o Power Pack (opcional)

Etapa 1: Para remover o Power Pack da placa de montagem, pressione a aba de liberação (D) e deslize o Power Pack para baixo.

Etapa 2: Para montar o Power Pack novamente, deslize o Power Pack para cima até o seu lugar.

Status do LED do Power Pack

Compatibilidade:

Kosmos Power Pack

Guía de inicio rápido

La caja contiene

Power Pack

Cable de carga

Placa de montaje

(Preinstalada en el Power Pack)

Configuración del Power Pack

Paso 1: Asegúrese de cargar el Power Pack durante una hora antes de usarlo.
(Consulte las instrucciones sobre cómo cargar el Power Pack).

Paso 2: Coloque el Power Pack en el dispositivo de modo que se ajuste cómodamente en la mano cuando esté en uso, manteniendo tanto el puerto como el Power Pack en el mismo lado.

Paso 3: Una vez que la posición del Power Pack esté configurada según sus preferencias, retire la parte posterior adhesiva de cada tira y coloque el Power Pack en el dispositivo en la posición deseada. Presione firmemente sobre el Powerpack y manténgalo presionado durante 45 segundos para asegurarse de que el adhesivo se pegue firmemente al dispositivo.

Notas:

- Las tiras adhesivas no se pueden reutilizar.
- El adhesivo no se adherirá a la goma.

Paso 4: Conecte el cable del Power Pack a la tableta como se muestra

A: Cable del Power Pack

B: Conexión del cable de la sonda

Nota: El Power Pack debe conectarse a la tableta **primero** para que la sonda sea reconocida por el Power Pack.

Carga del Power Pack

Paso 1: Desconecte la sonda si está conectada.

Paso 2: Conecte el cargador al Powerpack. Una vez conectado, las luces del Power Pack indicarán el nivel de energía de la batería.

C: Punto de adaptador de cargador de CA

Paso 3: Desconecte el cargador una vez que el Power Pack esté completamente cargado.

(Consulte Estado del LED del Power Pack).

Cómo desmontar el Power Pack (opcional)

Paso 1: Para retirar el Power Pack de la placa de montaje, presione hacia abajo la pestaña de liberación (D) y deslice el Power Pack hacia abajo.

Paso 2: Para volver a instalar el Power Pack, deslícelo hasta que quede en su lugar.

Estado del LED del Power Pack

Kosmos Power Pack Lynstartguide

Hvad er der i kassen?

Power Pack

Opladningskabel

Monteringsplade

(fastgjort til Power Pack)

Opsætning af Power Pack

Trin 1: Sørg for, at Power Pack oplades i én time før brug.
(Se anvisningerne om opladning af Power Pack).

Trin 2: Anbring Power Pack på enheden, så den kan holdes i hånden under brug. Porten til enheden og Power Pack skal være på samme side.
Afhængigt af tabletens størrelse skal Power Pack måske skubbes mod venstre eller højre, så den sidder godt.

Trin 3: Når du har anbragt Power Pack efter dine præferencer, skal du trække beskyttelsesfilmen af hver strimmel og anbringe Power Pack på det ønskede sted på enheden. Tryk godt ned på Power Pack, og hold trykket i 45 sekunder for at sikre, at klæbemidlet sidder godt fast på enheden.

Bemærkninger:

- Klæbestrimlerne kan ikke genbruges.
- Klæbemidlet vil ikke klæbe fast på gummi.

Trin 4: Tilslut Power Pack-kablet til tabletten som vist

A: Power Pack-kabel

B: Sondekabelforbindelse

Bemærk: Power Pack skal tilsluttes til tabletten **først**, for at sonden kan blive genkendt af Power Pack.

Opladning af Power Pack

Trin 1: Afbryd sonden, hvis den er tilsluttet.

Trin 2: Tilslut opladeren til Power Pack. Når den er tilsluttet, indikeres batteriets opladningsniveau af lamperne på Power Pack.

C: Vekselstrømsopladeradapterpunkt

Trin 3: Afbryd opladeren, når Power Pack er fuldt opladet.
(Se LED-status på Power Pack).

Sådan tages Power Pack af (valgfrit)

Trin 1: For at fjerne Power Pack fra monteringspladen skal du trykke ned på frigørelsesfligen (D) og skubbe Power Pack nedad.

Trin 2: Skub Power Pack op på plads for at sætte den på igen.

LED-status på Power Pack

Kosmos Power Pack Kurzanleitung

Lieferumfang

Power Pack

Ladekabel

Befestigungsplatte

(Am Power Pack vormontiert)

Einrichten des Power Pack

Schritt 1: Laden Sie das Power Pack vor der Verwendung eine Stunde lang auf.
(Siehe die Anleitung unter „Aufladen des Power Pack“.)

Schritt 2: Positionieren Sie das Power Pack so auf dem Gerät, dass es bei der Verwendung bequem in der Hand liegt, und achten Sie darauf, dass sich der Anschluss am Gerät und am Power Pack auf derselben Seite befinden.
Je nach Größe des Tablets muss das Power Pack möglicherweise nach links oder rechts geschoben werden, damit es optimal liegt.

Schritt 3: Wenn sich das Power Pack an der gewünschten Position befindet, ziehen Sie die Schutzfolie der Klebeschicht von jedem Streifen ab und platzieren das Power Pack in der gewünschten Position auf dem Gerät. Drücken Sie 45 Sekunden lang fest auf das Power Pack, damit der Klebstoff fest auf das Gerät aufgetragen wird.

Hinweise:

- Die Klebestreifen können nicht wiederverwendet werden.
- Der Klebstoff haftet nicht auf Gummi.

Schritt 4: Schließen Sie das Kabel des Power Pack an den Anschluss des Tablets wie abgebildet an.

A: Power Pack Kabel

B: Sondenkabelanschluss

Hinweis: Das Power Pack muss **zuerst** an das Tablet angeschlossen werden, damit die Sonde vom Power Pack erkannt wird.

Aufladen des Power Pack

Schritt 1: Trennen Sie die Sonde, falls sie angeschlossen ist.

Schritt 2: Schließen Sie das Ladegerät an das Power Pack an. Sobald das Gerät angeschlossen ist, zeigen die Lichter auf dem Power Pack den Ladezustand der Batterie an.

C: AC-Ladegerät-Adapteranschluss

Schritt 3: Trennen Sie das Ladegerät, wenn das Power Pack vollständig geladen ist.

(Siehe „LED-Status des Power Pack“.)

So lösen Sie das Power Pack ab (optional)

Schritt 1: Um das Power Pack von der Befestigungsplatte zu entfernen, drücken Sie auf die Entriegelungslasche (D) und schieben Sie das Power Pack nach unten.

Schritt 2: Um das Power Pack wieder anzubringen, schieben Sie das Power Pack nach oben in die richtige Position.

LED-Status des Power Pack

Guida introduttiva a Kosmos Power Pack

Contenuto della confezione

Power Pack

Cavo di ricarica

Piastra di montaggio

(preinstallata sul Power Pack)

Configurazione di Power Pack

Passaggio 1: prima dell'uso, assicurarsi di ricaricare il Power Pack per un'ora. (consultare le istruzioni sulla ricarica del Power Pack).

Passaggio 2: posizionare il Power Pack sul dispositivo in modo da garantire una presa confortevole durante l'uso, mantenendo entrambe le porte del dispositivo e del Power Pack sullo stesso lato.

A seconda delle dimensioni del tablet, potrebbe essere necessario spostare il Power Pack a sinistra o a destra per posizionarlo comodamente.

Passaggio 3: una volta stabilita la posizione del Power Pack in base alle proprie preferenze, rimuovere la parte adesiva su ciascuna striscia e posizionarlo sul dispositivo nella posizione desiderata. Tenere premuto con decisione sul Power Pack per 45 secondi affinché l'adesivo si fissi saldamente al dispositivo.

Note:

- Le strisce adesive non sono riutilizzabili.
- L'adesivo non aderirà alla gomma.

Passaggio 4: collegare il cavo del Power Pack al tablet come illustrato.

A: cavo del Power Pack

B: collegamento del cavo della sonda

Nota: il Power Pack deve essere **innanzitutto** collegato al tablet affinché riconosca la sonda.

Ricarica del Power Pack

Passaggio 1: se collegata, scollegare la sonda.

Passaggio 2: collegare il caricabatterie al Power Pack. Una volta collegato, le luci sul Power Pack indicheranno il livello di carica della batteria.

C: punto adattatore per caricabatterie CA

Passaggio 3: al completamento della ricarica, scollegare il caricabatterie dal Power Pack

(consultare Stato dei LED sul Power Pack).

Smontaggio del Power Pack (opzionale)

Passaggio 1: per rimuovere il Power Pack dalla piastra di montaggio, premere sulla linguetta di rilascio (D) e far scorrere il Power Pack verso il basso.

Passaggio 2: per reinstallare il Power Pack, farlo scorrere in posizione.

Stato dei LED sul Power Pack

Compatibilità:

Consultare echonous.com per l'elenco dei tablet e delle sonde compatibili.

Snelstartgids Kosmos Power Pack

Inhoud van de verpakking

Power Pack

Oplaadkabel

Bevestigingsplaat

(alvast bevestigd aan de Power Pack)

Uw Power Pack instellen

Stap 1: zorg ervoor dat de Power Pack een uur voor gebruik is opgeladen.
(Zie de instructies in Uw Power Pack opladen.)

Stap 2: plaats de Power Pack op zo'n manier het apparaat dat het comfortabel in de hand te houden is. Zorg ervoor dat zowel de poorten op het apparaat als op de Power Pack aan dezelfde kant zitten. Afhankelijk van de grootte van de tablet, moet het Power Pack moeglijk naar links of rechts verplaatst worden om goed te passen.

Stap 3: zodra de Power Pack op de plek van uw voorkeur zit, haalt u de folie van de achterkant van elke plakker en plaatst u de Power Pack op het apparaat in de door u gewenste positie. Druk de Power Pack daarna stevig aan en houd deze 45 seconden vast om ervoor te zorgen dat het plakmiddel stevig aan het apparaat hecht.

Notities:

- De plakstrips kunnen niet hergebruikt worden.
- Het plakmiddel hecht niet aan rubber.

Stap 4: sluit de kabel van de Power Pack zoals weergegeven aan op de tablet.

A: Power Pack-kabel

B: Verbindingskabel sonde

Opmerking: de Power Pack moet **eerst** op de tablet zijn aangesloten, voordat de sonde herkend wordt door de Power Pack.

Uw Power Pack opladen

Stap 1: koppel de sonde los indien deze verbonden is.

Stap 2: sluit de oplader aan op de Power Pack. Zodra deze verbonden is, geven lichtjes op de Power Pack het accuniveau aan.

C: Ingang AC-laadadapter

Stap 3: koppel de oplader los van de Power Pack zodra deze volledig is opgeladen.

(Zie de ledstatus van Power Pack.)

De Power Pack demonteren (optioneel)

Stap 1: druk op het ontgrendelingslipje (D) en schuif de Power Pack naar beneden om de Power Pack van de bevestigingsplaat te verwijderen.

Stap 2: schuif de Power Pack omhoog op zijn plaats om deze weer te bevestigen.

Ledstatus van Power Pack

Kosmos Power Pack

Hurtigstartveiledning

Innholdet i pakken

Power Pack

Ladeledning

Monteringsplate

(forhåndsfastet på Power Pack)

Sette opp Power Pack

Trinn 1: Sørg for at Power Pack lades i én time før bruk.
(Se instruksjonene om lading av Power Pack.)

Trinn 2: Plasser Power Pack på enheten slik at den ligger komfortabelt i hånden under bruk. Porten til enheten og Power Pack skal være på samme side.
Avhengig av størrelsen på nettbrettet, kan det hende at Power Pack må skifte til venstre eller høyre for å få komfortabel passform.

Trinn 3: Når Power Pack er plassert slik du foretrekker, trekker du av dekkpapiret på alle strimler og fester Power Pack i ønsket posisjon på enheten. Trykk bestemt ned på Power Pack og hold i 45 sekunder for å sikre at limet festes godt på enheten.

Notater:

- Limstrimler er kun til engangsbruk.
- Limet vil ikke feste seg på gummi.

Trinn 4: Koble Power Pack kabel til nettbrettet som vist.

A: Power Pack kabel

B: Tilkobling av probekabel

Merk: For at Power Pack skal kunne kjenne igjen proben, må Power Pack kobles til nettbrettet **først**.

Lade Power Pack

Trinn 1: Koble fra proben, hvis den er tilkoblet.

Trinn 2: Koble laderen til strømpakken. Når den er tilkoblet, indikeres batteriets lade nivå av lampene på Power Pack.

C: Punkt for adapter til nettstrømlader

Trinn 3: Koble laderen fra Power Pack så snart den er fulladet.

(Se LED-statuslamper på Power Pack.)

Slik demonterer du Power Pack (valgfritt)

Trinn 1: Når du skal ta Power Pack av monteringsplaten, må du trykke ned frigjøringsfliken (D) og skyve Power Pack ned.

Trinn 2: Når du skal montere Power Pack igjen, skyver du den opp og på plass.

LED-statuslamper på Power Pack

Kompatibilitet:

Se echonous.com for å se en liste over kompatible nettbrett og prober

Kosmos Power Pack Snabbstartsguide

Vad finns i lådan

Power Pack

Laddsladd

Fästplatta

(monterad på Power Pack-enheten)

Konfigurera din Power Pack-enhet

Steg 1: Ladda Power Pack-enheten i en timme innan den används.
(Se anvisningar för hur du laddar Power Pack-enheten.)

Steg 2: Placera Power Pack-enheten på surfplattan så att den är bekväm att hålla i handen när den används. Se till att surfplattans och Power Pack-enhetens portar sitter på samma sida. Beroende på surfplattans storlek kan Power Pack-enheten behöva flyttas till vänster eller höger för att få ett bekvämt grepp.

Steg 3: När du har hittat rätt position för Power Pack-enheten drar du av skyddsfilmen på varje självhäftande remsa och placerar Power Pack-enheten på önskad plats på surfplattan. Tryck hårt på Power Pack-enheten i 45 sekunder så att den fäster ordentligt på plattan.

Anmärkningar:

- De självhäftande remsorna får inte återanvändas.
- Materialet fäster inte på gummi.

Steg 4: Anslut Power Pack-enhetens kabel i surfplattan enligt bilden

- A:** Power Pack-enhetens kabel
B: Sondens kabelanslutning

Obs! Power Pack-enheten måste anslutas till surfplattan **först** för att sonden ska detekteras av Power Pack-enheten.

Ladda Power Pack-enheten

Steg 1: Koppla loss sonden om den är ansluten.

Steg 2: Anslut laddaren till Power Pack-enheten. När den är ansluten visar ljusindikatorerna på Power Pack-enheten vilken laddning batteriet har.

C: Punkt för nätströmsadapter för laddning

Steg 3: Koppla ur laddaren när Power Pack-enheten är fulladdad.

(Se Ljusindikatorstatus för Power Pack.)

Så lossar du Power Pack-enheten (valfritt)

Steg 1: För att ta bort Power Pack-enheten från fästplattan trycker du ner låsfliken (D) och drar enheten nedåt.

Steg 2: Om du vill fästa Power Pack-enheten igen skjuter du upp enheten på plats.

Ljusindikatorstatus för Power Pack

	Laddar: Blinkningsintervall: 3s	Skanning: Blinkningsintervall: 2s Nr = blinkningsordning (snabb)	Inaktiv: Blinkningsintervall: 1s Indikatorerna blinkar samtidigt
Batterinivå:			
0-25 %			
25-50 %			
50-75 %

Power Pack

Şarj Kablosu

Montaj Plakası

(Power Pack'e takılmış halde)

Power Pack'inizi kurma

1. Adım: Kullanımdan önce Power Pack'in bir saat şarj edildiğinden emin olun. (Power Pack'inizi Şarj Etme talimatlarına bakın.)

2. Adım: Power Pack'i cihazın üzerinde kullanım esnasında elde rahat duracak ve cihaz ile Power Pack'giriş portları aynı yönde olacak şekilde konumlandırın. Tablet'in boyutuna bağlı olarak, Power Pack'in rahat durabilmesi için sola veya sağa kaydırılması gerekebilir.

3. Adım: Power Pack istediğiniz konumda ayarlandıktan sonra her bir yapışkan şerit üzerindeki koruyucu kağıdı çıkartın ve Power Pack'i cihaz üzerine istenilen konumda yerleştirin. Yapışkanın cihaza sağlam şekilde uygulandığından emin olmak için Power Pack'e sıkıca bastırın ve 45 saniye basılı tutun.

Notlar:

- Yapışkan bantlar tekrar kullanıma uygun değildir.
- Yapışkan kauçuğa yapışmayacaktır.

4. Adım: Gösterildiği şekilde Power Pack kablosunu tablete bağlayın

A: Power Pack kablosu

B: Prob kablo bağlantısı

Not: Probun Power Pack tarafından algılanması için **ilk olarak** Power Pack tablete bağlanmalıdır.

Power Pack'inizi Şarj Etme

1. Adım: Bağlı ise probun bağlantısını kesin.

2. Adım: Şarj cihazını Power Pack'e bağlayın. Bağlandığında Power Pack üzerindeki ışıklar pilin güç seviyesini gösterecektir.

C: AC Şarj Cihazı adaptör noktası

3. Adım: Power Pack tamamen şarj olduğunda şarj cihazının bağlantısını kesin.

(Power Pack LED Durumu'na bakın.)

Power Pack'i sökme (isteğe bağlı)

1. Adım: Power Pack'i montaj plakasından çıkarmak için açma klipsine (D) bastırın ve Power Pack'i aşağı kaydırın.

2. Adım: Power Pack'i tekrar takmak için Power Pack'i yukarı doğru yerine kaydırın.
