

KOSMOS LINK

UNINTERRUPTED POWER FOR UNINTERRUPTED CARE

Kosmos Link enables continuous operation with charge-while-scanning capability, multi-probe connectivity, and enhanced power delivery for advanced imaging.

Offering hours of scanning on battery power alone—a previously unheard of amount of time in the portable ultrasound world—Kosmos Link adapts to your clinical environment, whether deployed as a tabletop or cart configuration.

Charge while
Scanning

Multi-Probe
connectivity

Extended Battery
Life

Cart to Handheld
Portability

Kosmos Link Works Where You Do

Anti-theft lock and
quick release

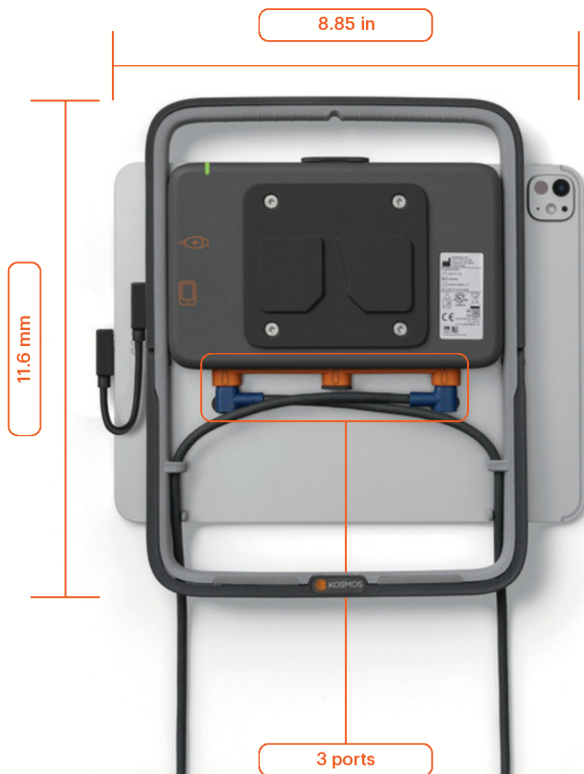

On a Table Top or Bed

Built-in kickstand for a table
top or the bed

On an IV Pole

Built-in design for ability to
hang on an IV Pole

Technical Specifications

Dimensions:

8.85 x 11.6 x 1.125 in

Weight:

950 g

Battery Life:

A fully charged Kosmos Link will provide 3-8 hours of uninterrupted scanning (performance varies based on scanning modes used).

Battery Capability:

Ability to charge while scanning

Battery Charge Time:

0-90% in ~2 hours

Multiple Ports:

3 ports to support 3 probes

Compatible Tablets:

Please visit: <https://echonous.com/product/device-compatibility/> for tablet compatibility

“Kosmos Link has had an immediate impact on our echocardiogram workflow. Allowing us to quickly and easily shift between different study acquisitions without having to unplug and plug each probe... The built-in battery and ability to keep the device charging while we’re using it means we can do more studies in a day.”

Henry L. Burkholder, IV MD
